

# Pictures to use for learning activity 1

## Submodule: Sustainable Diet

All pictures are collected from Colourbox.com

On the next pages are examples of pictures to use for the task to range food groups. We suggest using 6-8 pictures.

There are two options at the website *Our World in Data* (<https://ourworldindata.org/environmental-impacts-of-food#citation>)

Go to: “Explore data on the Environmental Impacts of Food”

### 1) Option 1: Choose “Commodity”

Here are some good alternatives to use (pictures listed on the next pages):

- a. Beef (beef herd)
- b. Root vegetables
- c. Coffee
- d. Nuts
- e. Eggs
- f. Rice
- g. Fish (farmed)

### 2) Option 2: Choose: “Specific food product”

Here are some good alternatives to use (pictures listed on the next pages)

- a. Beef meatballs
- b. Avocados
- c. Potatoes
- d. Brie
- e. Cod
- f. Olive oil

The students can explore different environmental impact on the website.
